

SURVEYING CAMBOURNE VILLAGE

What do we want to learn?

What to survey?

How to survey?

WHAT DO WE WANT TO LEARN?

How busy is Cambourne village?

How much traffic does Cambourne attract?

What level of internalisation is there?

WHAT TO SURVEY?

The village as a whole.

Internal developments which could attract trips from external locations.

WHAT TO SURVEY?

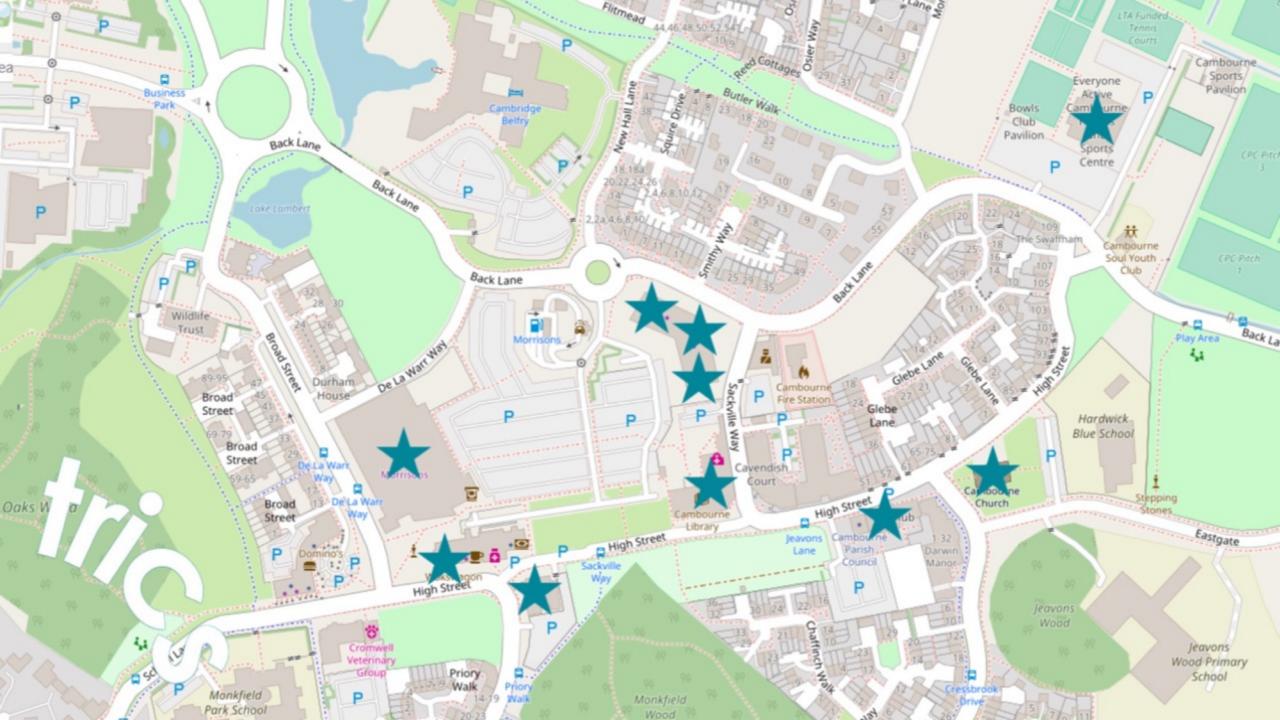

Excluded offices and schools as these already complete surveys which indicate levels of internalisation.

Target sites with no idea of levels of internalisation.

WHAT TO SURVEY?

Site visits occurred in February, 2017.

Agreed on a final sample of 10 internal developments.

Standard TRICS survey specification not sufficient.

Specifications require additional questions to deal with the internalisation aspect of the surveys.

The following question should also be asked:

"Do you live in Cambourne, work in Cambourne, both live and work in Cambourne or are you just visiting Cambourne?"

If the answer is "live in Cambourne" then record as only residing in Cambourne.

If the answer is "work in Cambourne" then record as only employed in Cambourne.

If the answer is "both live and work in Cambourne" then record as both residing and employed in Cambourne.

If the answer is "just visiting Cambourne" then record as neither residing or employed in Cambourne.

The following question should then be asked:

"Did this particular journey originate from within Cambourne or outside of Cambourne?"

If the answer is "within Cambourne" then record as an internal Cambourne trip.

If the answer is "outside of Cambourne" then record as an external Cambourne trip.

NOTE: This enumerator should take care to ensure that the correct modes and numbers are recorded when groups of people arrive at the site together.

Site visits highlighted the certainty of through traffic.

Eliminate through traffic with ANPR cameras.

Vehicles passing within 5 minutes excluded.

High level of bus passenger trips.

Up to 10 buses per hour passing through the site.

25 on-site bus stops.

Not feasible to place an enumerator at every bus stop.

Place enumerators on buses as they pass through.

Only requires up to five enumerators.

Gather permissions to survey internal developments.

Propose the surveys to TRICS data collection companies.

Award and schedule surveys for one day.

Contact all internal developments to gain permission from site operators.

This involves explaining who we are, what we do and that there are no catches!

Usual permission strike rate is around one in three.

Some sites difficult to obtain permission but help from local parish and district councils key to persuading several.

Monkfield Arms, Chutney Joe and Home Bargains refused to give written permission.

Leaves seven on-site developments to survey as well as the village.

CAMBOURNE VILLAGE

Village has two vehicle accesses and no meaningful pedestrian accesses.

ANPR cameras to record vehicles and vehicle occupants at both accesses.

CAMBOURNE VILLAGE

Permissions gained from Stagecoach and Whippet to place enumerators on buses.

Counts and interviews to determine bus passenger and internalisation levels.

MORRISONS

Multiple front door access points.

Includes a petrol filling station.

Up to 13 enumerators required.

JUST FOR PETS

Only one front door access point.

Part of larger retail park.

Up to two enumerators required.

POUNDWORLD

Only one front door access point.

Part of larger retail park.

Up to two enumerators required.

CAMBOURNE HEALTH CENTRE & LIBRARY

Two front door access points.

Mixed use development.

Up to four enumerators required.

CAMBOURNE COMMUNITY CENTRE

Four front door access points.

Includes parish council office.

Up to four enumerators required.

CAMBOURNE CHURCH

Two front door access points.

Includes clubs and other meetings.

Up to three enumerators required.

CAMBOURNE FITNESS & SPORTS CENTRE

One front door access point.

Includes classes and outdoor pitches.

Up to two enumerators required.

AWARDING SURVEYS

Surveys split into two packages when put out to tender due to the very large number of enumerators required for all the surveys to take place at the same time on a single day.

AWARDING SURVEYS

QTS awarded the village, Morrisons and other retail park stores surveys.

Alpha Parking awarded remaining four on-site development surveys.

ARRANGING SURVEY DAY

Needed to find a suitable "normal" day for surveys.

Worked with survey companies to agree a date.

Cleared the date with the parish council.

CARRYING OUT THE SURVEYS

Surveys occurred on Thursday, 7th June between 07:00-21:00.

TRICS, QTS and Alpha Parking all present on site.

Weather and conditions were favourable.

CARRYING OUT THE SURVEYS

Over 30 enumerators in total on site for surveys.

Some people refused to answer at multiple sites.

Possible pre-survey awareness in future.

INPUT AND ANALYSIS OF DATA

Standard TRICS survey data and results to be input into the new 17 New Communities land use category.

Internalisation results and analysis to appear in a final report within the TRICS Library.
